SAMEER HASSAN

SOC ANALYST

+923355345678   Hussania Chock, Dikhan   sameerhassanofficial@gmail.com   LINKEDIN

PROFILE

SOC Analyst with over 6 month of experience in cybersecurity. Skilled in utilizing tools like Splunk, IBM QRadar for log analysis and threat detection. Proactive problem-solver with a strong commitment to enhancing organizational security. Eager to contribute expertise to a dynamic cybersecurity team.

EXPERIENCE

CFSS INTERN

1/2/2024 - 1/3/2024

- Implemented security measures to mitigate risks during internship project
- Collaborated effectively with team members to analyze and respond to security incidents
- Demonstrated adaptability and quick learning in a fast-paced cybersecurity environment

TRYHACKME | CTF

- Actively participated in Capture The Flag (CTF) challenges on TryHackMe platform
- Learned and implemented new cybersecurity techniques through hands-on exercises
- Demonstrated continuous learning and skill development outside of traditional academic and professional settings

FREELANCING

- Provided end-to-end WordPress services, ensuring secure website development from initial setup to final launch
- Implemented robust security measures to protect WordPress websites from potential vulnerabilities
- Delivered high-quality services to clients, resulting in successful and secure WordPress websites for their businesses

EDUCATION

RIPHAH INTERNATIONAL UNIVERSITY

BS CyberSecurity | 4 Semester Completed

SKILLS

- SIEM:
- IBM QRadar
- Splunk
- Web Security:
- WordPress Security
- Vulnerability Assessment
- Incident Response
- Reverse Engineering
- Programming Languages:
- Python
- C++
- Malware Analysis

CERTIFICATIONS

- Security Operation center From CIsco
- SOC L1 From tryhackme
- Splunk Master from EDUBCA

PROJECTS

- **Keylogger:** Developed a keylogger to study system vulnerabilities.
- **Research Paper on Computer Forensics:** Contributed to advancements in forensic methodologies.
- **Reverse Engineering Project:** Analyzed and reversed engineering software to understand and improve security.
